## Profit Scan Report

- "Process" returns report with recommended items based on scanned items using an algorithm
- "Select All" selects all Recommended Items
- Each recommended item can be selected/unselected with touch
- Barcodes of selected items can be printed on Zebra printer
- Pdf report can be downloaded

## Other Menu Options

- "Print Single Tags" allows barcodes to be printed individually given item number
- "Update Settings" allows update of scanner and printer connection settings
- "Update Database" syncs local data with server
